

TIGERFLEX GT BLOWER HOSE

tigerflex GT SERIES

Application

GT blower hose is designed for dust collection, fume removal, air vent lines and other vapour removal applications.

Construction

Tube- Smooth clear PVC
 Reinforcement- Exposed grey PVC helix allows for extreme flexibility
 Cover- Smooth clear PVC allows visual confirmation that material is flowing

Temperature Range

-20°C to +65°C (-4°F to +150°F)

Standard Lengths

100ft & 50ft no cutting

Working pressures are calculated at 70 degrees F (20 degrees C). Maximum working pressure decreases as temperature increases. Pressure ratings can only be achieved using proper coupling procedures. Bend radius is calculated at 70 degrees F (20 degrees C). Flexibility may vary at different temperatures. Please contact JJD if you have concerns regarding your application.
