

Foliole Collection

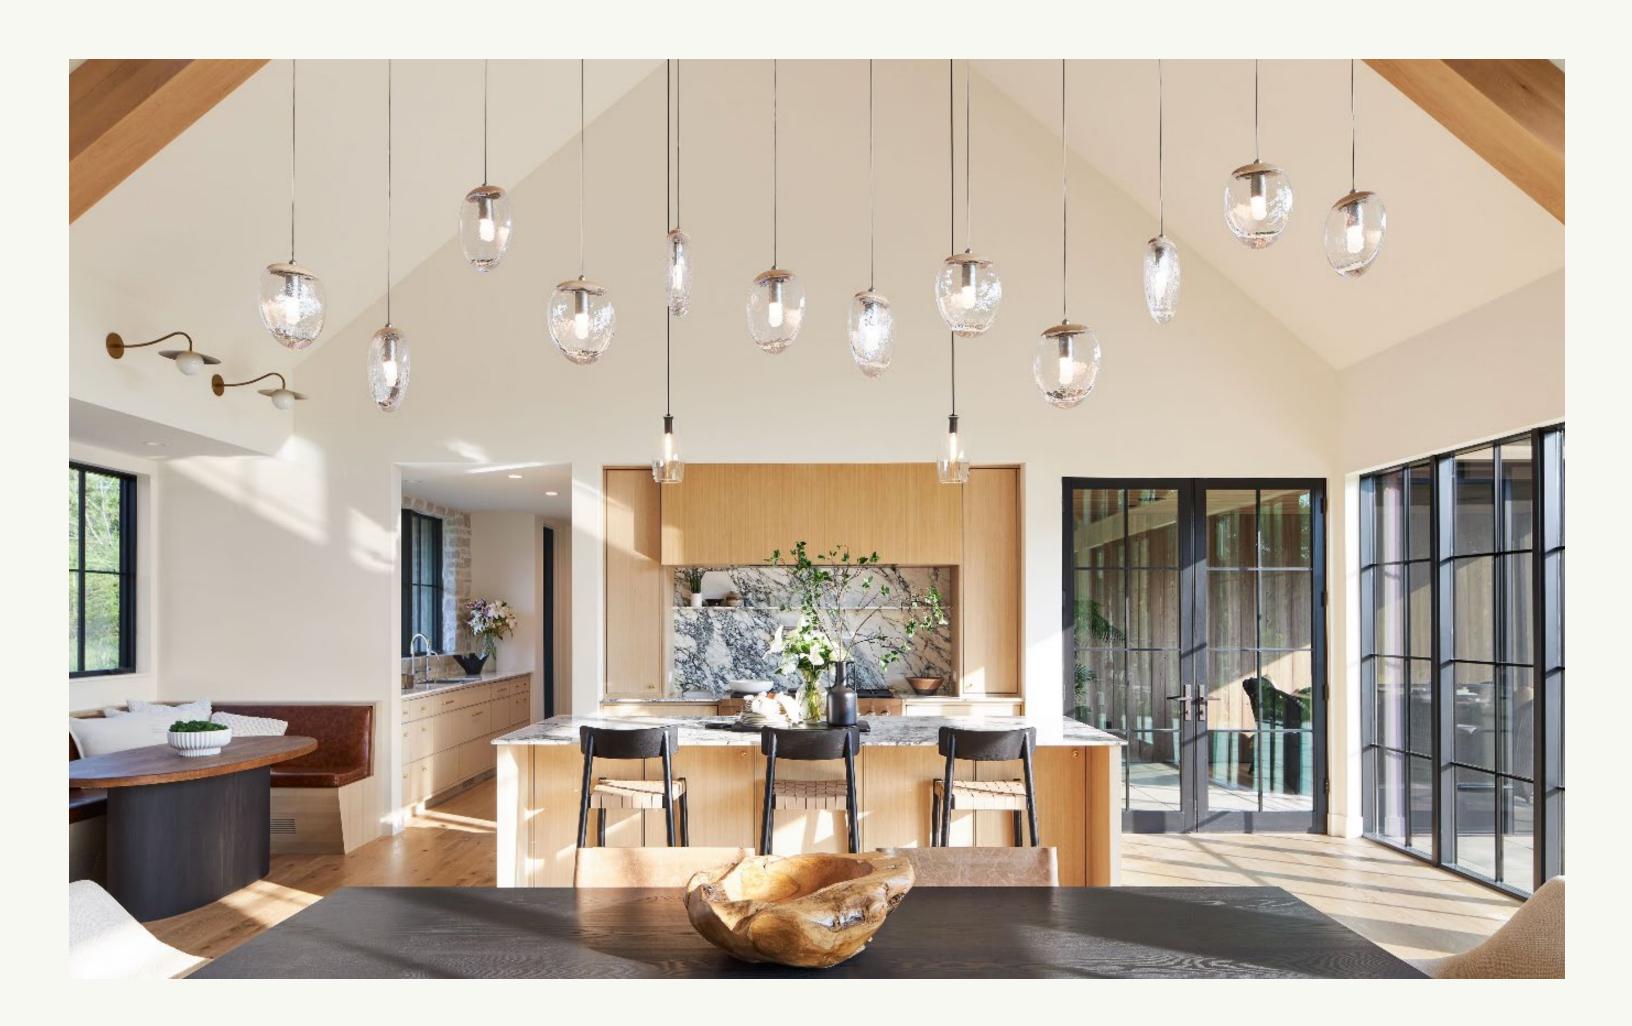

HENNEPIN MADE

A leaf inspired collection that leaves no detail unconsidered.

The Foliole collection comes from a simple interpretation of a leaf form. It's flattened shape sets a rich texture in the glass, diffusing and shifting the light as it radiates from the fixture.

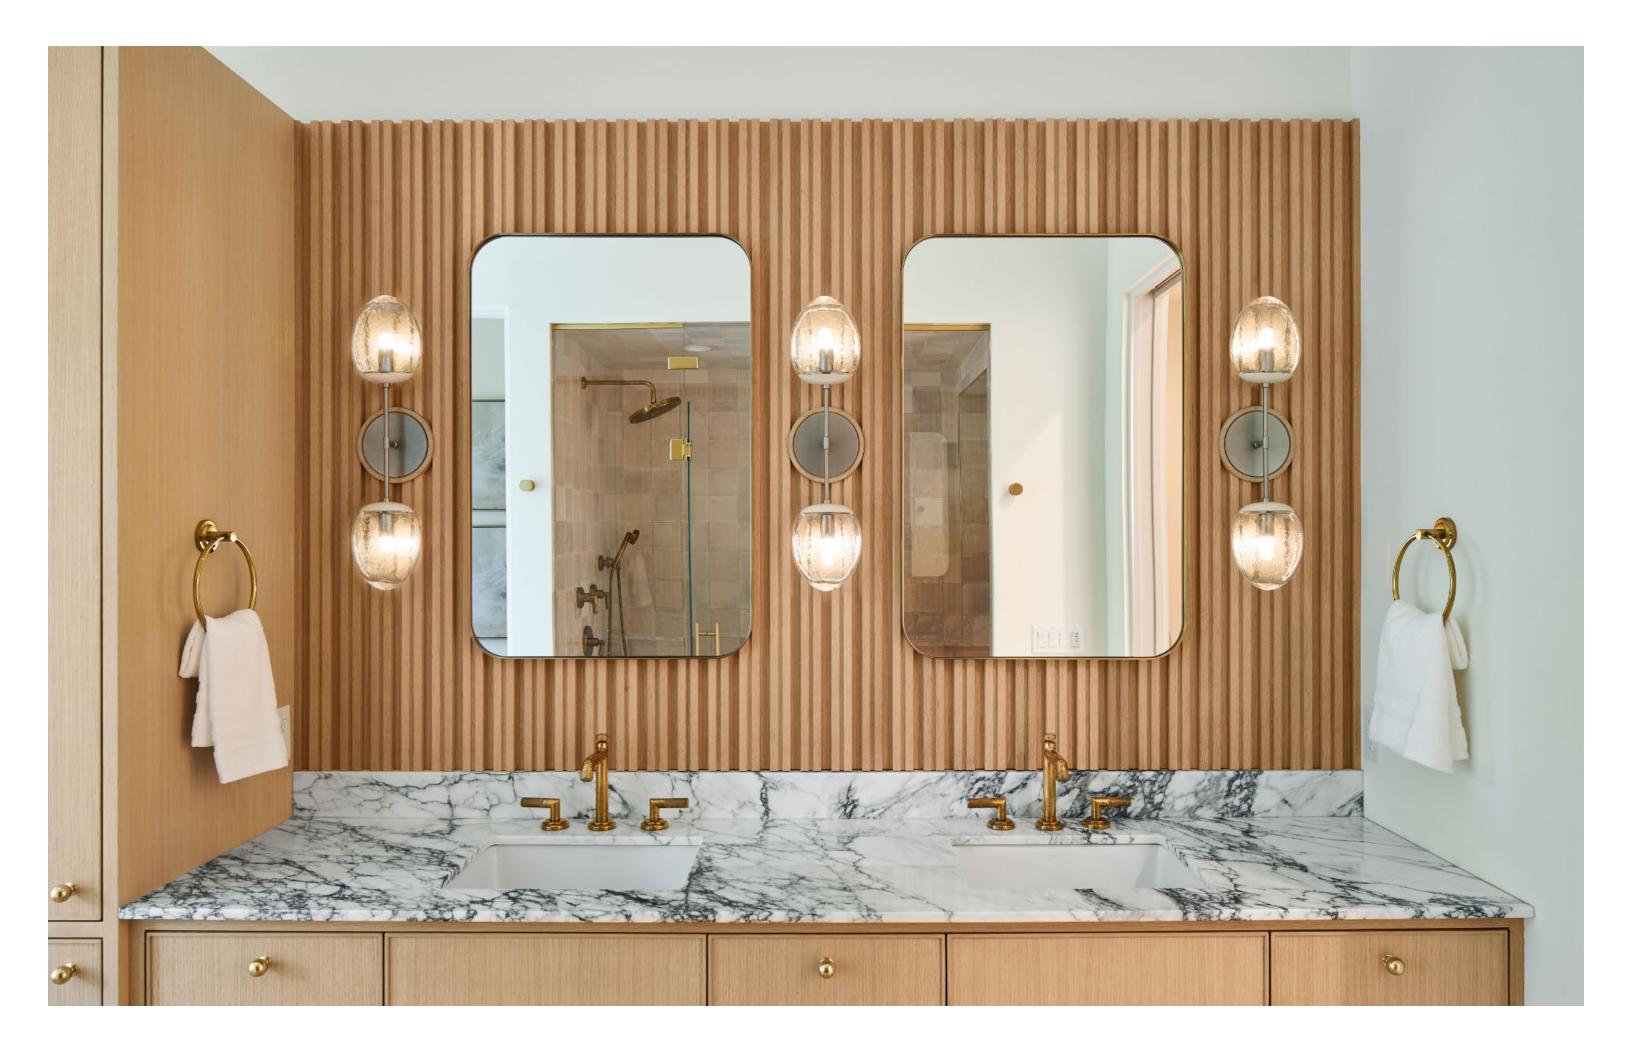

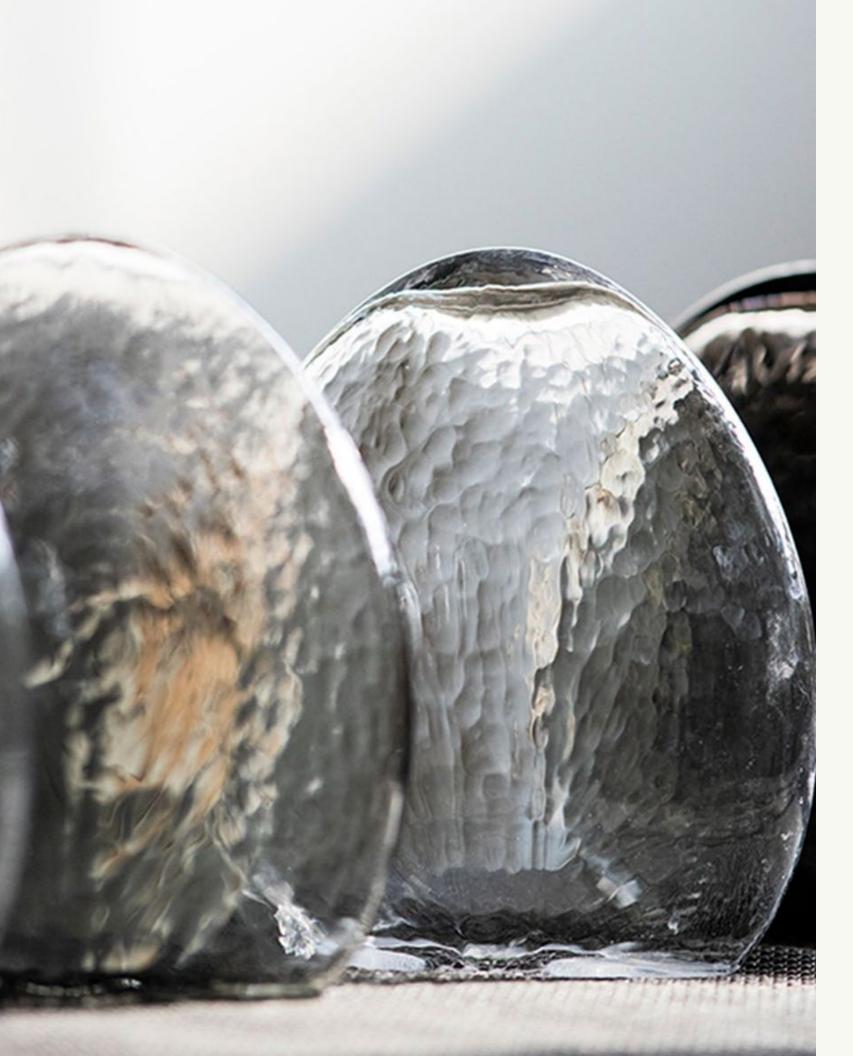

THE PROCESS

What makes Foliole so special is its signature rippled glass shade. This unique texture is achieved by rapidly manipulating the temperature of molten glass. How do we do this? Graphite molds are used instead of our traditional cherrywood molds. Graphite draws the heat from the molten glass out faster. Additionally, our glass artists hold steady without rotation resulting in capturing this flow of energy. Like leaves, each Foliole shade has its own unique pattern and texture.

This straight-from-nature texture refracts light in a more unique way than other glass shades.

Each Foliole light is hand cast by our artisans using techniques that create a rich, rippling surface.

Foliole is unique in that it uses all our finishing componants all crafted in house by our makers.

3 woods, 3 metals, and two glass color options make up the collection options. This collection is available as a sconce, double sconce, 3 light chandelier, 8 light chandelier and single pendant.

A plethora of ways to reimagine Foliole.

The Foliole collection is also available for making totally unique custom canopies. You dream it. We build it. Our goal is to create a work of art that brings distinction and wonder to your interior. Merging creative freedom with structural support, we create completely custom installations of all shapes, sizes and styles. It makes the difference between a simple interior and an unforgettable experience.
