

## Chandelier

The six-light Ontologia chandelier is a statement piece unlike any other. Deconstructing its own materiality, the Ontologia chandelier leverages everything from the light it emits to the connective cording to create a discourse on what it means to exist. While the whole is greater than the sum of its parts, each aspect of the of the arrangement conveys design intent. Playing upon forces in nature, magnetic hardware makes the collection sturdy in construction, yet malleable in application.
