

## Pendant

The Ontologia pendant is as unexpected as it is unassuming. Intriguing without being overpowering the pendant evenly defuses a rich soft light anywhere it hangs. The layering of metal, wood and glass brings the viewer back to the question of how objects coexist. While the whole is greater than the sum of its parts, each aspect of the of the arrangement conveys design intent. Deconstructing its own materiality, the Ontologia pendant leverages everything from the light it emits to the connective cording to create a discourse on form, function and philosophy.
