

HENNEPINMADE

Handmade
is human.

What it means to be Human Made.

Humanity is in our DNA. Every glass light is made by hand in our studio in Minneapolis. Our time-honored methods allow us to fine-tune every aspect of production, but the human touch does more than make beautiful pieces. It's what shapes our operations, culture and our commitment to sustainability across the entire supply chain.

Artisan Run

We started in 2012 with a small crew of artists and makers committed to hand-crafted small-batch glass works in reaction to the ever-expanding nature of globalized production and supply chains.

Industrial Ecology

From renewable energy and waste management, to paying a living wage and creation of green spaces, we are working to protect our environment and improve our community.

Made in Minneapolis

With virtually every aspect of our process executed in our Minneapolis studio, we are committed to the highest quality while pioneering industry standards of social responsibility in the workplace.

Helena Pendant

Helena Pendant

These vertically orientated pendants have been designed for large spaces that require a long vertical reach. They also fit nicely within design applications where a narrow shape is needed such as vanities, bedside, or offset in an entryway.

The three different sizes compositionally play well together while each offering unique advantages as individual lights.

Canopy Arrangements

Create stunning vertical installations with the Helena multi-pendant canopies. Our standard 3 light canopy comes with a small, medium and large pendant to show off the various proportions in this collection. With five large pendants, the 5 light canopy brings the beauty of repetition and incredible versatility in creating one of kind installs through simply adjusting cord lengths on site.

Ontologia Collection

Chandelier

The six-light Ontologia chandelier is a statement piece unlike any other. Deconstructing its own materiality, the Ontologia chandelier leverages everything from the light it emits to the connective cording to create a discourse on what it means to exist. While the whole is greater than the sum of its parts, each aspect of the of the arrangement conveys design intent. Playing upon forces in nature, magnetic hardware makes the collection sturdy in construction, yet malleable in application.

Floor Lamp

Standing at 6.5' tall, the Ontologia floor lamp hits multiple ends of multiple spectrums. Sturdy and grounded yet floating and airy, it's a statement piece that actually has something to say. Deconstructing its own materiality, the Ontologia floor lamp leverages everything from the light it emits to the connective cording to create a discourse on what it means to exist. While the whole is greater than the sum of its parts, each aspect of the arrangement conveys design intent.

Sconce

The duality of the two-light Ontologia sconce reminds us that the collection is designed to spark discussion around coexistence. Deconstructing its own materiality, the Ontologia collection leverages everything from the light it emits to the connective cording to create a discourse on what it means to exist. While the whole is greater than the sum of its parts, each aspect of the of the arrangement conveys design intent, finding a perfect balance its combination of wood, metal and glass.

II

Table Lamp

The Ontologia table lamp inspires wonder through its delicate, unexpected design. Intriguing without being overpowering the table lamp evenly defuses a rich soft light, but can be placed around other objects to create dramatic shadows—all bringing us back to the question of how objects coexist. Sturdily constructed in thick glass, the table lamp is also designed to wobble a bit when force is applied, making it safe to sit anywhere you place it. While the whole is greater than the sum of its parts, each aspect of the of the lamp conveys design intent. Deconstructing its own materiality, the Ontologia table lamp leverages everything from the light it emits to the connective cording to create a discourse on form, function and philosophy.

Pendant

The Ontologia pendant is as unexpected as it is unassuming. Intriguing without being overpowering the pendant evenly defuses a rich soft light anywhere it hangs. The layering of metal, wood and glass brings the viewer back to the question of how objects coexist. While the whole is greater than the sum of its parts, each aspect of the of the arrangement conveys design intent. Deconstructing its own materiality, the Ontologia pendant leverages everything from the light it emits to the connective cording to create a discourse on form, function and philosophy.

HENNEPINMADE

Lacuna Collection

Drop Rod Globe Pendant

With an organic form honoring the human made quality of each piece, Lacuna is imbued with the intimacy between the maker and the material. The same glass is always used, heated at the same temperature (around 2,000 degrees). What distinguishes each piece is the human touch. The maker of the glass brings a unique character to each light, changing the form and shape just the right amount and embracing "imperfections."

Lacuna 3 Light Canopy

Create the perfect balance with our 3 light Lacuna canopy, featuring all 3 sizes of our new collection. Just like forms in nature, every single Lacuna piece is its own distinct form—no two are alike—though the overall combination creates an atmosphere of harmony. And the best part—we can customize cord lengths, size arrangements and more so you can make your own, totally unique installation.

HENNEPINMADE

Taku Collection

Sconce

Each wall sconce is hand cast using a technique creating a rich, rippling texture with subtle bubbles. The industrial metallic bases in 5 finishes provide a handsome contrast to the textured or frosted glass. The Taku Sconce offers a variety of possible environmental design options due to its unique size. This light provides a simple statement on its own but is also stunning in a multi-unit installation.

Flush Mount

With the same build as the Taku wall sconce this low profile option creates a solution for "hard-to-fit" design spaces. Providing wonderful ambient light for when setting a mood is key. Taku's small compact shape is an elegant and versatile fixture that adds a compliment to high design without taking too much attention. The integrated LED is hidden behind the metal cover to give it a radiant glow with an internal diffuser so the glass has two layers of light diffusion giving it the most uniform light qualities possible.

Bruma Collection

Sconce

Each sconce is hand cast using a technique that creates a rich, rippling texture with subtle bubbles. The enchanting tones of this walnut selection in 4 finishes elegantly contrasts the textured glass of the Bruma collection. Offered in two size options, the Bruma Sconce opens a world of possibilities for customization for any space. Beautiful individually or in multiples, this sconce makes a statement.

HENNEPINMADE

Neena Collection

Pendant

The Neena Pendant is a collaboration in design by Atlason Studio and Hennepin Made. This fluid pendant was designed with both modern home, workspace, and hospitality settings in mind, with its seamless ability to be used independently or in a unique combination of multiples.

Neena combines crystal clear, opaline white, bronze, or smoke glass with five versatile metal spinning colors. The craftsmanship comes through in the process of hand-making each blown glass component; the weight and thickness of the design requires skilled technique at every step.

Halo Collection

Cone Pendant

Based on The Roman Ring, an ancient technique of folding glass into itself, the Halo collection takes a modern approach. This elegant hand-blown fixture is comprised of a single glass band that captures the eye's attention. Its cone shape houses a long filament bulb which produces a striking glow off the edge of the glass band. This practical form offers colored glass options for you to design a functional work of art.

Parallel Collection

Canister

With tight curves and clean lines, this modern canister form is both classic yet contemporary. While designing this light, we took inspiration from hanging oil lanterns that used to adorn homes of a prior generation. With its crisp form and sensuous color it illuminates spaces that are traditional or contemporary, giving a feeling of both the past and present alike.

Cylinder

When paired with a long LED filament bulb, this tall cylinder creates a beautiful and calming light. Its blown glass shade radiates color by just having the tip of the bulb exposed through the metal top. Whether placed in a residential or commercial application, these simple and elegant cylinders work great grouped together.

Teardrop

Simple, elegant, and bold. The flowing contour of the Parallel Teardrop pendant exemplifies industrial precision with handmade beauty. Inspired by raindrops, the crisp union of glass and metal converge along the smooth curve of this light. Each delicate piece is made with care and attention resulting in a level of quality that will enhance any space.

Orb

Large voluminous curves make up the Parallel Orb's stunning shape. It is the largest pendant in the collection, making it a great centerpiece light or when used in multiples to create dramatic scale. It features a three bulb cluster branching out from the metal top and illuminating the handblown glass below. Each piece is made with care in our Minneapolis studio.

Wide Cylinder

The bold and delicate tension of this light makes it the pillar in the Parallel collection. The silhouette draws attention, while the subtlety of the metal finish brings a refinement suited for most modern spaces. It's breadth and volume make it a great choice for over a dining table or in an entrance lobby.
