

Parallel Collection

HENNEPINMADE

Parallel universe.

The collection that started it all. This collection celebrates timeless forms and the interplay of lucent and opaque glass. These eight pendants draw upon the union of glass and metal to create contrasting parallel bands. The warmth of the illuminated glass and the subtle sheen of the metal spinning brings refinement to any space.

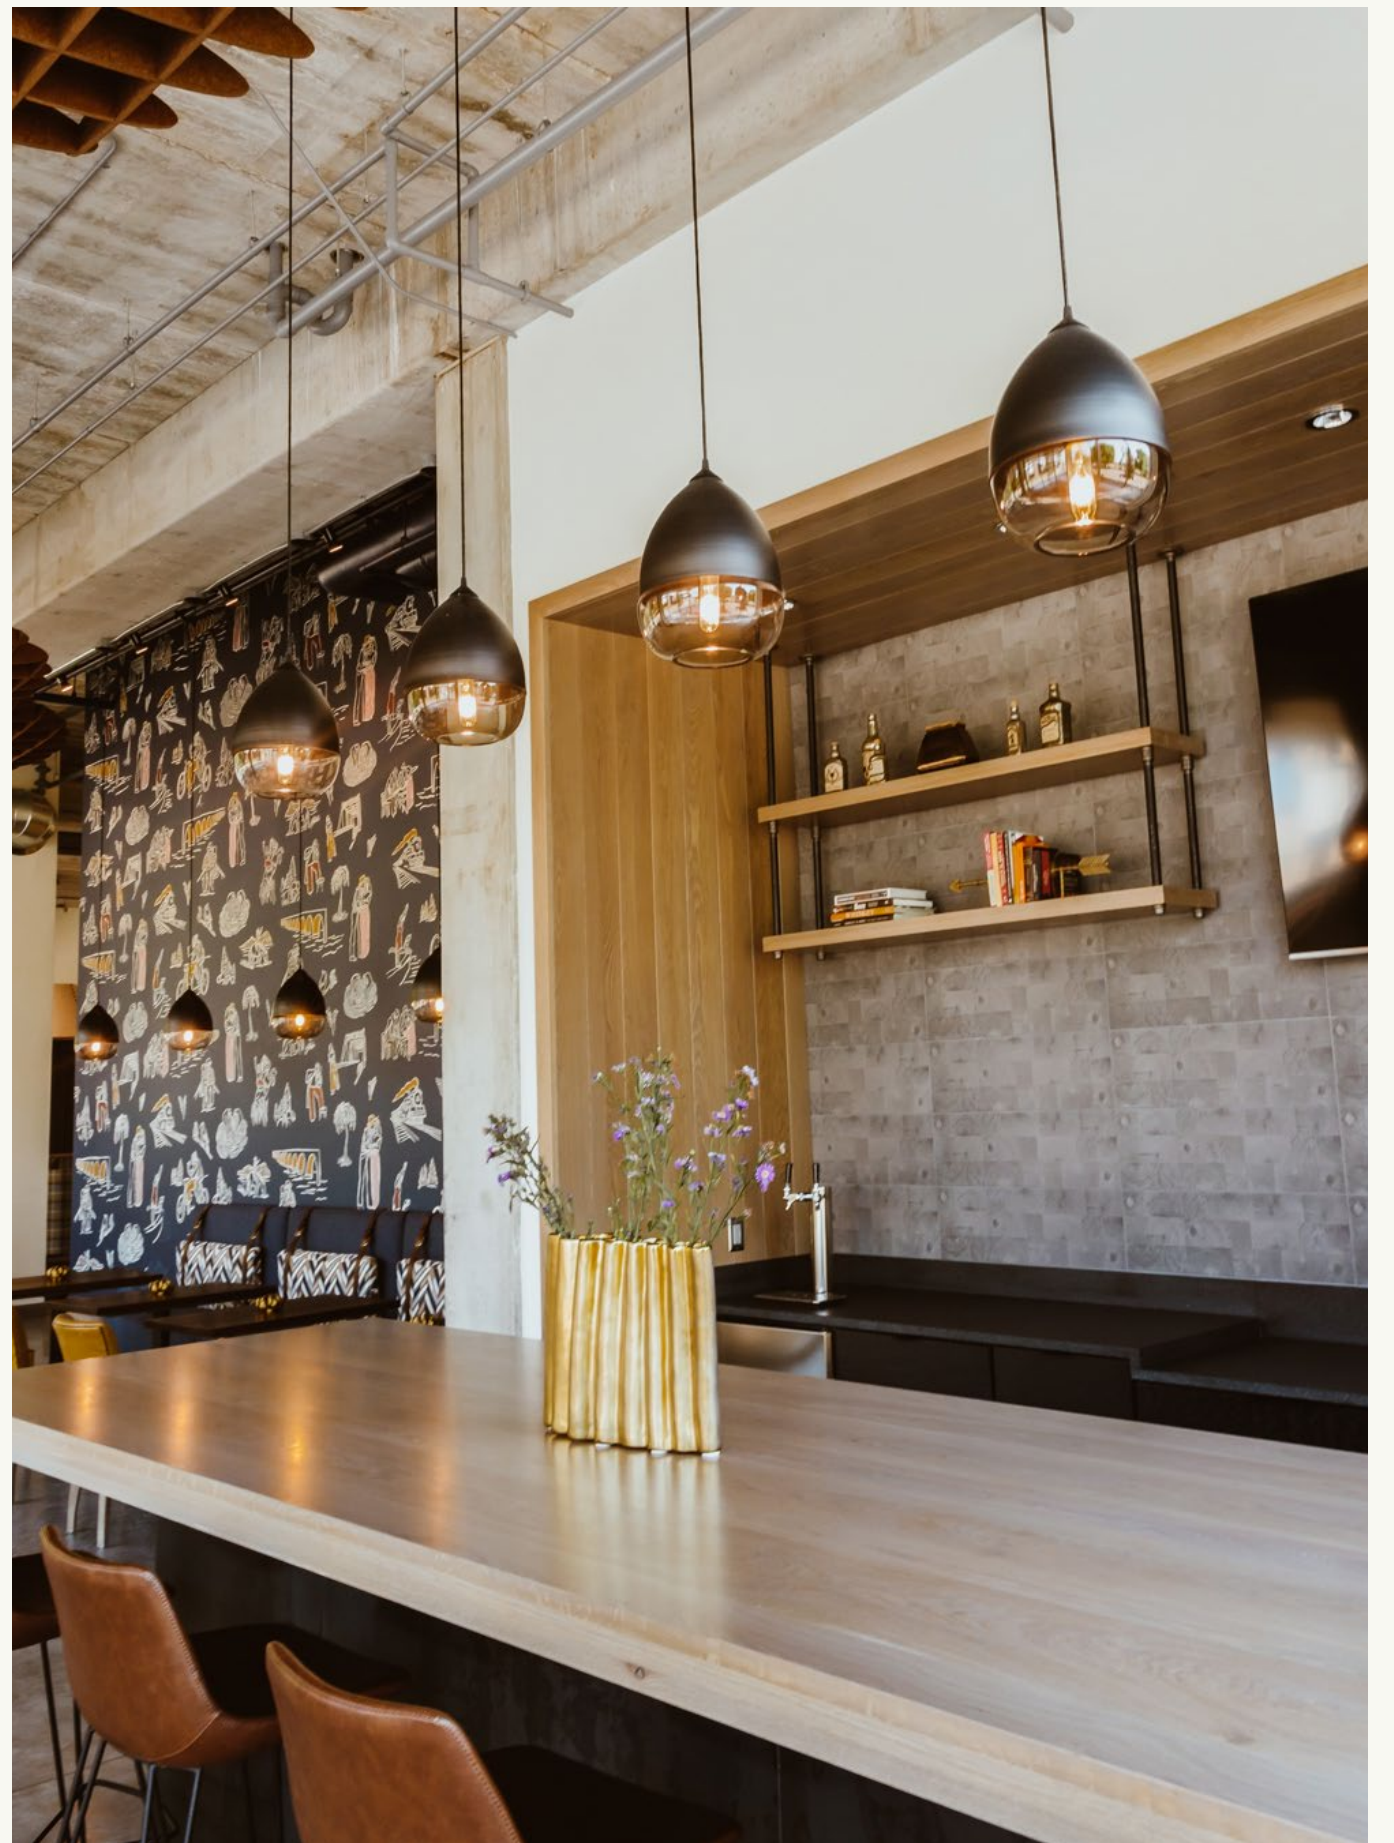

Endless ways to reimagine Parallel.

The Parallel collection is also available for making totally unique custom canopies. You dream it. We build it. Our goal is to create a work of art that brings distinction and wonder to your interior. Merging creative freedom with structural support, we create completely custom installations of all shapes, sizes and styles. It makes the difference between a simple interior and an unforgettable experience.

Each of our Parallel lights are delicate yet bold, playing on the contrast between metal and glass. With unmistakable silhouettes, all 8 variations are distinct but unified.

The Parallel collection is available in 8 distinct designs with 2 metal finishes and 6 glass options.
