Except as may be required by Canadian securities laws, Dorel does not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Forward-looking statements, by their very nature, are subject to numerous risks and uncertainties and are based on several assumptions which give rise to the possibility that actual results could differ materially from Dorel's expectations expressed in or implied by such forward-looking statements and that the objectives, plans, strategic priorities and business outlook may not be achieved. As a result, Dorel cannot guarantee that any forward-looking statement will materialize, or if any of them do, what benefits Dorel will derive from them. Forward-looking statements are provided in this press release for the purpose of giving information about Management's current expectations and plans and allowing investors and others to get a better understanding of Dorel's operating environment. However, readers are cautioned that it may not be appropriate to use such forward-looking statements for any other purpose.

Forward-looking statements made in this press release are based on a number of assumptions that Dorel believed were reasonable on the day it made the forward-looking statements. Factors that could cause actual results to differ materially from Dorel's expectations expressed in or implied by the forward-looking statements include: general economic conditions; changes in product costs and supply channels; foreign currency fluctuations; customer and credit risk, including the concentration of revenues with small number of customers; costs associated with product liability; changes in income tax legislation or the interpretation or application of those rules; the continued ability to develop products and support brand names; changes in the regulatory environment; continued access to capital resources and the related costs of borrowing; changes in assumptions in the valuation of goodwill and other intangible assets; and there being no certainty that Dorel's current dividend policy will be maintained. These and other risk factors that could cause actual results to differ materially from expectations expressed in or implied by the forward-looking statements are discussed in Dorel's annual Management Discussion and Analysis and Annual Information Form filed with the applicable Canadian securities regulatory authorities. The risk factors outlined in the previously-mentioned documents are specifically incorporated herein by reference.

Dorel cautions readers that the risks described above are not the only ones that could impact it. Additional risks and uncertainties not currently known to Dorel or that Dorel currently deems to be immaterial may also have a material adverse effect on Dorel's business, financial condition or results of operations. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.
