

# HG E2000

**HIGH  
SWIVEL  
TIP**

**100% electric  
dumpers**

**Meet the E2000 – our new, 100% electrical dumper capable of running a full working day with 2 tonnes of bulk.**

**This is the next step** in our mission to help accelerate the use of emission-free machines on-site. It is for professionals who want to create a safer, cleaner, and quiet working environment while ensuring the same strong performance.

**The E2000** can carry up to 2 tonnes, while the lithium battery allows it to run for 12 hours – more than a full working day. This makes it simple to use without worrying about emptying the battery. As a matter of fact, it charges from 20-80% in just 2,5 hours.

The total 4-Wheel Drive system provides torque on all four wheels so that you can keep spinning even when one wheel is not touching the ground.

**E2000** is designed in Denmark and built at our facilities.

**100%  Electric**

- Lithium battery technology
- Significantly reduces noise levels
- Reduced emissions and environmental impact
- 12-hour effective run time, more than a full day's work
- Fast charging - 20 to 80% battery in 2,5 hours
- Charge anywhere with car charger: 16A power / 220v EU plug
- One-pedal driving for maximum comfort

**World  
Premiere!**

**Loads 2.000 kg  
Total 4-Wheel drive**

**Specifications:**

L x W x H: 3975 x 1480 x 2989 mm  
Weight: 2150 kg.  
Volume: 892 l  
Payload kg.: 2.000 kg  
Unloading height: 172/120 cm

**Battery:**

Lithium: 17-23 kWh  
Voltage: 48V  
Runtime: 1 day

**Charger:**

Internal charger: 1-10 kW  
160A charger / 20-80%: 2,5 hours / 0-100%: 4 hours  
35A charger / 20-80%: 10 hours / 0-100%: 12 hours

# HG E2000

#### Engine:

Type: Electric  
Performance: 3 kW x 4 pcs.  
Moment: 41Nm - instant  
Travel speed: 0-16 km/h

#### General function:

Tip: Hydraulic  
Swivel: Hydraulic  
High Tip: Hydraulic
