Delta has been making rocking chairs for decades, and their knowledge of comfort and style is unparalleled. The Emma chair is covered in soft microfiber fabric that is easy to clean and looks great in any room. The rockers on the bottom are deep enough to provide a good rock but gentle enough that you never feel unstable.

The chair is extra-deep, so those with long legs will love the stable feeling they get when they're seated. However, that also means it might not be the best for more petite parents.
