Why You Should Get It: This fold out lounge chair is washable, and it has a pocket for books.

Keep In Mind: There are no springs in the seat cushion—just foam.

The Delta Children Cozee Flip-Out Lounger is the best reading chair for kids. The oversized base fits two to three small children, and the chair folds out into a lounger. The side of the chair also features a pouch where children can store a book or two when they are finished reading. The chair is also lightweight (it weighs about 5 pounds) and can be easily moved from one room to another.

The exterior fabric is a soft, textured fabric, which adds personality to the design. It's available in three different colors: cream, gray, and pink. To keep the fabric looking fresh, consider taking a fabric shaver and smoothing out rough patches when needed. When the chair needs a good cleaning, you can simply throw it in the washing machine.

The seat is made entirely of foam, so it doesn't have spring coils in the seat for extra support like many chairs for adults have. However, the foam is perfectly suited for kids to snuggle up on.

Price at time of publish: \$100

Product Details: Dimensions: 30.5 x 17 x 16.5 inches | **Material:** Polyester and foam | **Weight Capacity:** Not listed
