#### Delta Children Jeep Deluxe Wrangler Stroller Wagon

\$400 At Amazon

\$400 At Walmart

**Materials:** Leatherette, UV-blocking canopy, wipe-clean fabric | **Dimensions:** 46 x 29 x 46 inches | **Weight capacity:** 110 pounds | **Weight:** 46.2 pounds

For peace of mind in the summer sun, Delta Children's Jeep Deluxe Wrangler Stroller Wagon employs a UV-blocking canopy and pull-down shades to keep harmful rays away, which is game-changing if you spend a lot of time in the sun with family. A perfect all-rounder for those with young children, the wagon can accommodate two children of up to 55 pounds (with 5-point safety harnesses) or 110 pounds of equipment. Or, buckle up your baby in a car seat (compatible with various brands) with the included adapter to keep them safe and secure as you venture through the sand.

The wagon steers via two adjustable leatherette handlebars in a push or pull fashion that navigate swivel front wheels to easily turn through the sand. In fact, the wheels (the front at 8 inches and the back at 12 inches) are puncture-proof and airless, making them suitable for any terrain.

The wagon includes a removable cooler bag (where you can store up to 16 cans of pop), a cup holder and various storage pockets to tuck away smaller items. Once you're done for the day, a compact folding and auto-lock latch takes the hassle out of storing it away until the next beach day.

**Pros:**

- All-terrain wheels
- Compact fold and quick-release back wheels
- UV-blocking canopy and roll-down shades for sun protection

**Cons:**

- Heavier compared to many other beach wagons
- Higher-price point
