This solid Delta Children crib offers four conversions, going all the way from a standard crib to a full-size bed with a headboard. As Brown explained, “Delta Children makes quality, safe cribs that meet all design aesthetics and they are reasonably priced,” which is part of the reason she named it as one of her favorite convertible crib options. While the company offers a variety of convertible cribs, this Fancy model has blown reviewers away, earning a 4.8 out of 5 overall rating on Amazon.

It also has three mattress height options, is easy to assemble and comes in a handful of suitable neutral colors. It’s JPMA-certified. Keep in mind that the toddler and full size bed conversion guardrail kits are sold separately. It can also be used as a daybed.
