**Pros:** Not sure what movement you prefer in your nursing chair? With this comfortable and modern option, you don't have to choose. It can glide forward and backward, rock gently, and swivel 360 degrees. The wooden frame is sturdy, and the metal base makes for smooth movement, so your baby can stay settled. This chair is available in three neutral colors to fit seamlessly into any nursery theme. The cushions are easy to spot clean, and unlike most nursing chairs, the bottom cushion can be removed for more thorough cleaning. The chair is straightforward to assemble and is done in minutes.

**Cons:** While the movement is smooth, the chair is noisy and is hard to keep from squeaking or creaking. This chair has the lightest weight limit on this list at 225 pounds. It doesn't come with an ottoman, so you'll have to look for one separately.

**Bottom Line:** Find what movement makes you and your baby the most comfortable for feeding and soothing with this nursing chair that does it all: rocks, glides, and swivels. This chair's seat cushion comes out for easy cleaning. This chair is smaller and has a lighter weight capacity than most, so it may be better suited for those with a more petite build.
