THIS JUST IN

IT'S TIME TO POTTY

Potty training often comes with a list of items to introduce into your bathroom— a freestanding potty, potty seat, and step stool being some of the most popular. Now, Fridababy's Grow-With-Me Potty does it all! The Grow-With-Me Potty adapts as they learn, turning into a toilet-seat topper and finally, a step stool when they're ready. The brand truly has parents covered with their Poo + Pee Potty Liners that fit securely into the potty, and Potty Mess Mats that protect floors from messes and misses. —fridababy.com
