

6 best stroller wagons that make adventuring with kids so much easier

Delta Children

\$190.79

Hercules Stroller Wagon

For a budget friendly option that checks all the boxes, the Delta Children Hercules Stroller Wagon can do the job for less than \$200 bucks. Of course there are some concessions, but at less than a third the price of our top pick, that shouldn't be a shocker.

The durable design is made with a steel frame and weather-resistant fabric with an adjustable handle bar on each side. There's tons of space for two kids and cargo including a removable center console with cup holders and storage pocket. On sunny days, the UV canopy and roll-down shades keeps rays at bay from every direction.

The small puncture-proof wheels aren't designed for rugged terrain, but if you're sticking to pavement and sidewalks, it's not an issue. It gets high marks for an easy assembly as well as its packability too!

Age: 9 months and older

Weight limit: 55 pounds per bench

Car seat compatible: No

Dimensions: 51.2 x 19.5 x 44 inches

Weight: 36.3 pounds
