## **Best kids' desk: home and bedroom furniture to boost creativity**

The best kids' desks will bring order into your home, plain and simple. You know how un-fun it is to help your kids pack their bookbags when their homework is scattered across every room in the house? Or have you noticed how unmotivated you are to pull out and set up an art project for your kids when all the supplies are buried in the back of the hall closet? Whether for homework, crafting, art projects or computer work, having a designated space where kids can work builds healthy routines, fosters independence, and encourages creativity.

### Best toddler desk: Delta Children MySize Chair Desk with Storage Bin

#### All-in-One

This toddler-sized set offers a chair, removable cup holder, desk, and storage all in one. *Amazon*

---

This durable, non-toxic, scratch-proof engineered [wood chair](#) is a practical choice for your toddler's reading, coloring, and writing activities. Under the seat, a fabric bin can be used to store books and supplies, and on the tabletop, there is a removable cup for crayons or markers. This is a great space-saving solution for preschool-aged kids.
