12 of the Best Wagons for Kids to
Take on Your Next Big Adventure
(Or, You Know, to the Playground)

8. Jeep Wrangler Stroller Wagon

- **Why We Love It:** car seat, stroller and wagon mode, detachable cooler bag, adjustable handlebars, puncture-proof tires, storable canopy
- **Weight Limit:** 110 pounds
- **Weight:** 51 pounds
- **Dimensions:** 46 x 29 x 46 inches

This Jeep Wrangler wagon pulls double duty as a stroller. Strap the kids in for a day of fun, knowing they're secure in the five-point safety harness. A canopy will provide welcome shade, but can be easily stored if everyone wants to soak up some Vitamin D. A cooler and organizer help keep the essentials stored neatly—the former has a 15-pound capacity to accommodate all the snacks and sippy cups. And because this one comes with an included adaptor for multiple popular car seats (like Britax B-Safe 35 and Chicco Keyfit 30), you can use it from ages 0 and up.
