## The Coziest Sofas Specifically Made For Your Kid's Comfort

*We only recommend products we love and that we think you will, too. We may receive a portion of sales from products purchased from this article, which was written by our Commerce team.*

**W**e love how kids' sofas are basically miniature versions of what we grownups have in our living rooms. Everything is better when it's miniature. Yeah, we said it. Miniature food, miniature ponies, and especially miniature furniture. Kids' furniture, for the most part, is so much fun. In an effort to appeal to kids, furniture makers create everything from [car beds](#) to [loft beds](#) to [toddler chairs](#) — and even kids' sofas. If you thought sofas for children only consisted of couch-shaped pillows splashed with cartoon characters, you're sorely mistaken. You can now find high-quality furniture made in smaller sizes, especially for kids. We're talking pleather sofas, princess-style chairs, and so much more. You're going to want many of these in your own size, and we absolutely feel you! Ahead, find our favorite kids' sofas — including those couch-shaped [pillows splashed with cartoon characters](#).

### Delta Comfort Serta Perfect Sleeper

This Delta Comfort Serta Perfect Sleeper is extra soft and cozy for your little one. It's a couch that flips out to a small bed so your kid can use it any which way. It's available in gray or pink and is conveniently machine washable. One callout on this kid-size sofa is that the zipper on the cover doesn't have a pull on it so that it's safer for your kids. That does mean that when you want to use it you'll have to use a paperclip or similar item to move the zipper, but for the safety of your little ones, we think it's worth the trouble.

**One Reviewer Says:** "I bought this for my granddaughter to have something soft to sit on and possibly nap. I'm so glad I did. The day it arrived she came to stay with me and went straight to it. She sat on it and then unfolded it and took a 3-hour nap! She never does that here. I fell in love with it immediately, and so did she. This chair was so easy to assemble and super fast. The material is extremely soft, you just want to constantly brush your hand over it."

### Delta Children Cozee 2-in-1 Convertible Sofa to Lounger

When you need to prep an extra sleeping space on short notice, you might be thankful for this [Delta Children Cozee 2-in-1 Convertible Sofa](#). In just a pinch, it can turn into a lounger that's great for nap times or just a little bit of downtime. This design is great for a kid who's into space, but the company has several other prints that can correspond with the theme of any room — including *two* unicorn options. This version is recommended for children over the 18-month mark.

**One Reviewer Says:** “The fabric is wonderful and this chair is well made. Got for children ages 3 and 4 and they went crazy over them. They work great for us as beds when the kids sleep over and then fold up nice to be a chair that easy to store away until they come again.”
