The 15 Best Nursery Gliders for 2023! [Traditional to Unique]

Delta Children Ella Rocker – Best Rocker + Glider for Short Moms!

If you are looking to go with a nursery rocking chair, this is it. This is actually the rocker our Rookie Mom CEO uses for her and her little one. Being only 5'2 she says, "some rockers are too large which makes it awkward to comfortably sit with the baby," but this Ella Rocker is the perfect size.

You can get the ottoman that comes with the rocker or mix and match it with a different ottoman as she did in the picture above. [Check out the coordinating ottoman here!](#)
