BEST BASSINET FOR A BIG BABY

Delta Children babyGap Whisper Bedside Bassinet

\$150 AT GAP

CREDIT: BABYGAP

### PROS

- ⊕ Six height adjustments
- ⊕ Legs can tuck under adult bed
- ⊕ Lockable wheels

### CONS

- ⊗ Doesn't rock

Our Lab experts appreciate how straight-forward this 2-in-1 bassinet and sleeper is to use. Simply unzip and unroll the side wall and attach the sleeper to your adult bed using the included straps. It has six adjustable height positions that can accommodate most adult beds between 19- and 25-inches high. We also appreciate that this **convertible bassinet has a higher weight capacity than others at 30 pounds.**

You can choose from four colors and patterns from pink stripes to black camouflage, and the bassinet is lightweight so you can move it around your room as needed. The legs tuck underneath an adult bed and the lockable wheels will keep it in place. The bassinet comes with a mattress pad, fitted sheet and strap — plus the sheet and bassinet cover are machine washable for easy cleaning.

One important note is that some online reviews say this 2-in-1 bassinet has a rocking motion, but it does not rock. While this may not be an ideal choice for a baby who sleeps better with motion, it will make the eventual transition to a crib easier.

<b>Max weight of baby</b>	30 lbs.
<b>Motion and sound</b>	No
<b>Dimensions</b>	30" L x 26.5" W x 36" H
<b>Bassinet weight</b>	22.53 lbs.
