Measuring Method

STEP 1

Confirm the rail type of your home

※ Cannot be used on general function rail and ceiling installation.

Rail Type

[Decorative rail]

Type of installation

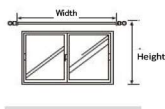

[Wall installation]

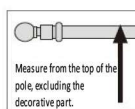

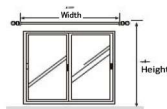

STEP 2

Measure the width and length

[Waist high window]

[Sliding door]

Width: Measure the length of the ring runner from one end to the other.
Length: Measure the length from the bottom of the ring runner to the bottom of the window frame.

Width: Measure the length of the ring runner from one end to the other.
Length: Measure the length from the bottom of the ring runner to the floor.

Caution: When measuring curtain sizes

Do not directly measure the curtain fabric that is currently in use.

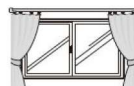

Do not measure the window directly without the curtain rail.

STEP 3

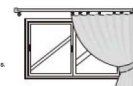

Decide the way the curtains open

[Double-side opening (two piece tailoring)]

Two curtains for one window.
Open from the centre to both sides.

[One-sided opening (one piece tailoring)]

One curtain for one window.
Opens in either direction.
