- Fabrics available: Drape, Lace
- Upper specifications: Interlining 9cm 2 Folds
- Side specifications: About 2.7cm 3 Folds
- Hem specifications: About 10cm 2 Folds With ceramic weight on both sides
- Pattern matching is available
- Comes with tassels (Laces do not come with tassels)
- Shape memory is not available.
- Lining is not available.

#### General view

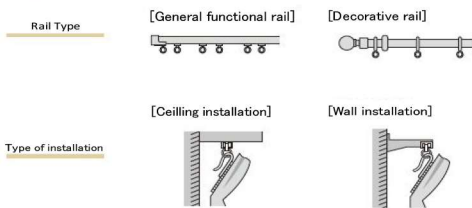

### Order size (Recommended)

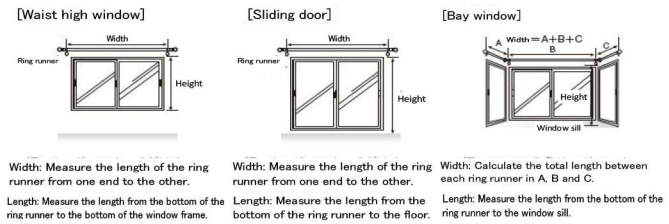

- Width: Pole width x 1.1 times
- Height: (Waist high window) From ring runner to the window frame + 15~20cm (Sliding door) From ring runner to the floor - 1~2cm

### Measuring Method

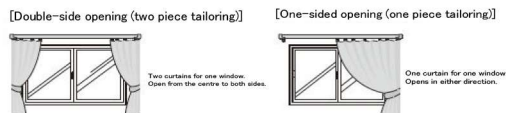

#### STEP 1 Confirm the rail type of your home

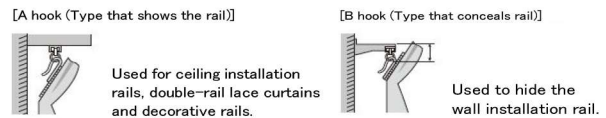

#### STEP 2 Measure the width and length

#### STEP 3 Decide the way the curtains open

#### STEP 4 Decide the type of hook

#### Caution: When measuring curtain sizes

Do not directly measure the curtain fabric that is currently in use.

Do not measure the window directly without the curtain rail.

#### Points to consider when measuring length

It is easier to measure if you use the paper measure given in the shop over the ring runner loop.

※ Please be careful if there is any furniture under the window.
