Tea Party Game

Object: Be the first player to gather tea time treats from every category.

Instructions:

1. Spread the tablecloth and place the teapot spinner in the center of the play area. Use the box as a tea tray and place the other pieces inside. Each player chooses a plate.
2. Youngest player plays first. Spin and pick an item from the tea tray that matches the category spun.
3. Only one item from each category may be collected. If you spin a category you already have collected, you may either pass your turn or trade for another item in that category from the tea tray.
4. If the spinner arrow stops at the bees, the player must return an item (not a plate) to the tea tray. If no items have been collected, spin again. Once you have spun bees three times, you have "Bee Immunity," and for the rest of the game you may spin again if you spin bees!
5. When you have a Napkin & Utensils, Cream & Sugar, a Sandwich, Fruit, Dessert, and a Cup of Tea, you have won the game!

Plate

plato • Teller • assiette
