UNITED STATES BINGO GEOGRAPHY

For 2–6 players, ages 5 and up

The object of United States Bingo is to be the first player
to fill a geographical region card with tiles.

1. Place the state product/industry tiles into the drawstring bag.

2. Deal an even number of cards to each player. Set aside leftover cards for another round. (Younger players may wish to play with a single card.)

3. Select one player to be the US Bingo caller. The caller reaches into the drawstring bag, pulls out a tile and reads the state and its feature.

4. Players check their cards to find the state, calling out the name of the state to claim the tile. Place tiles on matching spaces on cards.

5. If the tiles does not match any state on the players' cards, set it aside for another round.

6. The caller continues to draw chips and read out their features.

7. Be the first player to fill all the tile spaces on a card and win this round!

8. Reshuffle cards and deal, place all tiles in drawstring bag, pick a new caller and play again.

Bonus Challenge: Name all the capitals of the states on your card.
