Citrix Access Gateway 1.1 for Mac is free to download from our software library. Citrix Access Gateway for Mac lies within Security Tools, more precisely Mac protection. This software for Mac OS X is an intellectual property of Citrix Systems Inc. The unique identifier for this application's bundle is com.citrix.vpnc.

IMPORTANT NOTICE: Please review and confirm that your practice has completed these steps:
Dear Allscripts Hosted Client:
As communicated late in 2018, Allscripts is migrating to a new data center for Allscripts® Practice Management and Allscripts Professional EHR™ solutions. As part of our overall data center and hosting strategy, we are upgrading our data centers through a series of steps that will enhance our ability to deliver hosted services to our clients.
Our strategy will enable us to implement the next-generation architecture and improved operational processes, providing state-of-the art services delivered from more robust data center hosting environments. Clients will experience enhanced infrastructure availability, flexibility and scalability, shortened infrastructure implementations and upgrades, and improved problem resolution through a contemporary security framework.
Your practice is scheduled to be migrated and we want to share a few of the plan specifics. The first step in the process is to ensure that you have completed preparations we shared in earlier communications.
They include:

- Updating your operating system with the current Microsoft patches
- Installing updated print drivers
- Preparing to use a new URL

Steps and resources for completing **Actions** (above) are included on Page 2 of this message. If you have not completed these steps, please take time to do so now. Links to instructional videos to guide you through each step are available.
What to expect during your migration:

- During the migration your system will not be accessible.
- Your system will be available for you to begin validation typically the following afternoon.
- Status updates during the migration will be available in Client Connect's Professional Cloud Hosting Advisory Blog. (https://clientconnect.allscripts.com/blogs/prosuitecloud). Please subscribe to this blog for updates.

Once you review this information, we are here to help if you have questions or need guidance. Please contact Allscripts Support and let us know how we can assist you.
Sincerely,

Libby Moore
Vice President and General Manager, Ambulatory Clinical Business
