## THE PEBBLE TOTEM COLLECTION

Reflecting our inherent nature of duality, this totem collection reflects a childlike play and symbolises the synergies that form a connection between our inner thoughts and our outer expressions. The organic pebble forms stack together and blend balance, harmony and serenity in a seamless cohesion. Drawing inspiration from nature's magnanimity and created in a variety of materials and crafts to become signature Objets d'art.

## WELLNESS

The art of wellness is best understood through a series of rituals. Dhoop burned with the rise of the sun. A candle lit before bed, gently snuffed out as one drifts off to sleep.

The best rituals are uniquely yours, crafted through a series of trial and error to find space that you can hold as your own. Explore Ikai Asai's wellness range to craft your ritual.
