#### OUR BESPOKE SERVICE.

Our online kit designer enables you to choose from ready made designs to create a kit perfectly suited to your own unique personality.

Choose a starting design online or take a look through our gallery photos for inspiration!

#### GOT YOUR OWN IDEAS?

Using our expert in-house design team, we can design pretty much anything you like. From retro to the most unique colourful design you can imagine! Using our specialist sublimation methods, we are able to create any design in an array of colours and styles, complete with sponsors and logos.

#### FULLY SUBLIMATED GARMENTS.

Our bespoke products are fully sublimated. Sublimation is a process by which dyes are applied to the fabric.

The dye-sublimation printing process uses heat to transfer dye onto the fabric and because the dyes bond very well with polyester it is possible to print bright, well-defined images. Logos, names and numbers can be printed onto the product at the same time, which means there is no additional cost for these customisations.

# RUGBY

## RUGBY

- Unlimited design options, with many colours and styles complete with sponsors and logos.
- The LAXFIT Sublimated Jersey is tailored traditional playing jersey, with a contemporary fabric and tested to destruction to give you a jersey that can take all you can throw at it. Made from 280g Performance Polyester this style of shirt has a regular tailored fit allowing a looser feel and greater air movement within.
- The EXOFIT Sublimated Jersey is designed to be worn as close to the skin as possible so it has a figure hugging shape. These shirts are worn tight so pick a size as close to your actual chest measurement as possible.

# CYCLING

## CYCLING

- We offer a wide range of custom cycle jerseys & cycle kit for your club including custom cycle jerseys, cycle gilets, cycling jackets and much more.
- Our bespoke cycling jerseys are crafted from our professional, exclusive fabric. The moisture wicking properties provide year-round comfort as it moves chill-inducing perspiration away from the skin, keeping your body warm and dry. What's more, the Lycra fibre we use in your custom cycle jerseys can stretch, whilst providing excellent recovery performance so that garments can keep their shape for years.

EMBROIDERY

To Embroider your garments we need to have a digitised DST file of your design. Embroidery Setup is available. Contact us for prices.

Club logo's (normally applied to the left breast) and small sponsor logo's are ideal for Embroidery. Almost any type of garment (including Caps) can be embroidered. If you wish to embroider individual names, company names on square numbers in block type, this is called monogramming. A nominal charge is made for this service.

An existing DST file may also be amended (eg. to show a new tour date or to change 1st XV to 1st XI) - we may need to change in these cases.

PRINTING

We offer a printing service, prices vary depending on size and colour.
