HOCKEY SKORT

LADIES

HOCKEY SKORT

The Ladies Hockey Skort is available in a range of dynamic sublimated designs, created to your specifications. The garment consists of a lightweight, breathable skirt, and built-in shorts for a supportive fit. The inner shorts are crafted using a soft polyester lycra knit, with fast drying properties. A flat stretch waistband creates a comfortable, secure fit, whilst the elasticity of the outer fabric allows freedom of movement with the ability to bounce back into shape.

HOCKEY POLO

LADIES

HOCKEY POLO

Our Polo Shirts are made from Seartex fabric which is 100% polyester with dual wicking technology. It is lightweight and dries extremely fast. It has a soft inner fibre to eliminate chafing. Perfect garments for post-match travelling and social occasions.

- Self colour fabric collar
- Taped neckline & Raglan sleeve
- Two button self colour placket
- Semi-fit garment
- Lightweight performance fabric
- Dual wicking technology

*Also available in Capped Sleeve

OUR BESPOKE SERVICE.

Our online kit designer enables you to choose from ready made designs to create a kit perfectly suited to your own unique personality.

Choose a starting design online or take a look through our gallery photos for inspiration!

GOT YOUR OWN IDEAS?

Using our expert in-house design team, we can design pretty much anything you like. From retro to the most unique colourful design you can imagine! Using our specialist sublimation methods, we are able to create any design in an array of colours and styles, complete with sponsors and logos.

FULLY SUBLIMATED GARMENTS.

Our bespoke products are fully sublimated. Sublimation is a process by which dyes are applied to the fabric. The dye-sublimation printing process uses heat to transfer dye onto the fabric and because the dyes bond very well with polyester it is possible to print bright, well-defined images. Logos, names and numbers can be printed onto the product at the same time, which means there is no additional cost for these customisations.

Above left is a JPEG, showing poor quality of a low resolution image. The above right is a Vectorised image making it perfect for reproduction.
