EURO STRIPE SOCK

75BB

Available in sizes:
Small (Shoe Sizes 1 - 3)
Medium (Shoe Sizes 4 - 7)
Large (Shoe Sizes 7 - 11)

Our Euro Striped socks are made from acrylic and are carefully designed with comfort and performance in mind.

An elasticated fold-over top allows them to be worn either above or below the knee, as required, and this also helps to keep your shin-pads in place. A second panel at the ankle helps the sock to retain its shape. A final panel across the top of the foot protects the small bones in this area, by helping the foot to keep its shape.

Our Euro Striped socks have excellent wicking properties and we've also included cool mesh panels on top of the sock (to line up with the ventilation panels in sports boots). The socks also have a flat-seamed toe, which helps avoid a bulky seam that will irritate and distract from your performance!

EURO SOCK

75BA

Available in sizes:
Small (Shoe Sizes 1 - 3)
Medium (Shoe Sizes 4 - 7)
Large (Shoe Sizes 7 - 11)

Our plain colour acrylic Euro socks are designed for comfort, breathability and performance. They feature an elasticated fold-over top so they can be worn either above or below the knee, as required. This panel also helps to keep shin-pads in place, while another at the ankle helps the sock to hold its shape. A third panel across the top protects the small bones in the foot, by helping the foot to keep its shape.

Our socks are naturally wicking, but we've also included cool mesh panels on top of the sock (to line up with the ventilation panels in sports boots). The socks also feature a flat-seamed toe, to avoid a bulky seam that will irritate, just where you don't want it to.

EMBROIDERY AND PRINTING

ARTWORK INFORMATION -

For Olorun to produce high quality decoration we need logo's for print, heatseal, sublimation and Embroidery to be provided in the following formats.

A VECTORISED FILE -

Adobe Illustrator (ai.) or Encapsulated Post Script (eps.) format files have no loss of quality when manipulated in size. Therefore these are the preferred formats to produce the best output.

HIGH RESOLUTION PDF -

Only Adobe Illustrator PDF's are acceptable for all decoration.

HIGH RESOLUTION JPEG -

In order that your, or your sponsor's logo is produced perfectly we must use vectorised artwork. If JPEG is the only format that can be supplied to us we will have to regenerate artwork in a vector format. To do this we charge.

EMBROIDERY

To Embroider your garments we need to have a digitised DST file of your design. Embroidery Setup is available. Contact us for prices.

Club logo's (normally applied to the left breast) and small sponsor logo's are ideal for Embroidery. Almost any type of garment (including Caps) can be embroidered. If you wish to embroider individual names, company names on square numbers in block type, this is called monogramming. A nominal charge is made for this service.

An existing DST file may also be amended (eg. to show a new tour date or to change 1st XV to 1st XI) - we may need to change in these cases.

PRINTING

We offer a printing service, prices vary depending on size and colour.
