

Justrite® Safety Drum Funnel - 08205

813mm flame arrester

Manufactured from galvanized steel with a durable epoxy powder-coat finish, this Justrite® funnel is ideal for use with flammable liquids.

The design incorporates a self-closing lid, and thanks to a fusible link that melts at 74°C, the lid will automatically close in the event of a fire.

This model can be used with liquids which have a 'syrupy' flow but which are free of solid particles.

SPECIFICATION

Funnel size	273mmØ x H245mm
Flame arrestor	813mm in length
Tare weight	7.3kg
