

Justrite® Dip Tank - 27602Z

8ltr capacity

Manufactured from galvanised steel and given a durable powder coat paint finish, this FM tested and approved dip tank is ideal for cleaning small parts that doesn't warrant the use of a large tank.

The lid stays open during use, but will, thanks to its self-closing fusible link, close automatically if temperatures reach 74 °C or above..

SPECIFICATION

Capacity	8ltr
Size	238mmØ x H254mm
