

IBC Spill Pallet - BB1DT

Backed by our 3 year guarantee

Moulded from medium density polyethylene this large capacity spill pallet can be used with most standard IBCs, has broad chemical compatibility and fully complies with all the UK, European and other country's regulations relating to sump capacities. In addition the removable grid provides easy access for cleaning.

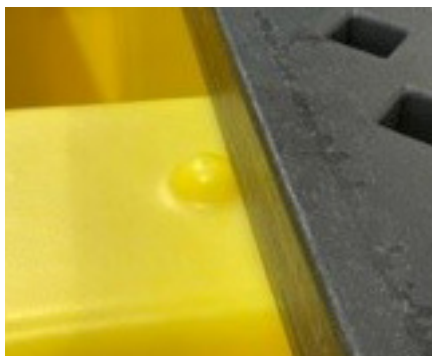

Pallet height allows for safe dispensing as it helps eliminate back strain from constantly bending over. Designed to stack 5 units to minimise transport costs.

Built-in decanting area which allows any leaks/drips to be contained within the sump.

SPECIFICATION

Size	1870mm L x 1340mm W x 1030mm H
Nº of containers	1 x 1000ltr IBC
Sump capacity	1125ltr
Colour	Yellow
Tare weight	93kg
UDL	2000kg

*The grid should be placed up against and in-between the nodules at both ends of the pallet. There are 2 positioned at the front & 1 at the back (3 in total). These are designed to prevent the grid from moving or sliding, especially when an IBC is being loaded/unloaded.
