

CB650 - 650mm Curtain Boom

Available in standard sizes and custom dimensions to order curtain booms have a high buoyancy to weight ratio and a good response to wave action making them useful in inland or sheltered water such as within a harbour. They have excellent UV resistance and chemical resistance to acids, alkalis, solvents and hydrocarbons. We can also manufacture in different material types (PU and Neoprene) please contact us to discuss your application.

Note:

Freeboard = vertical height of the product above the water

Draft = depth of the product below the water
