

Chemical Absorbent Pads – CP200-120

Yellow chemical pads are your best bet when working with aggressive chemicals or when you are unsure what the spilt/leaking liquid is. The bright yellow colour is a good visual warning to others clearly identifying the spill as hazardous. These pads are bonded and fitted with a cover-stock to provide excellent wear resistance and market leading tensile strength and are perforated to allow you to use as much or as little as you need depending on the application.
