

Snow Plough Attachment FLT-SPA-180

Fresh snow only

Manufactured from mild steel this snow plough attachment can be used with a standard fork lift truck.

The snow plough can clear to the left or right hand side, please specify which you prefer when ordering.

Easy to attach using the screw clamps and retaining chain provided, the plough's metal blade has a 20mm thick replaceable rubber tip to protect drain covers and kerb edges.

Please note this plough is designed for use on freshly fallen snow rather than compacted snow or ice.

SPECIFICATION	
Clearance path	1800mm (please specify which side you wish it to discharge to)
Fork spread	890mm
Maximum fork size	140mm x 55mm
Colour	Yellow
Tare weight	80kg
