

## GB30 - Gas Cylinder Storage Unit

The base is manufactured from mild steel sheet, with RHS cross members and pressed ribs. All the corner posts, mains rails, and cross members are from rolled hollow section. The back and side panels are pressed from mild steel sheet and corrugated where required.

The sloping roof is pressed and fitted with suitable bracing and fully welded around the perimeter. The unit has crane-lifting points (maximum gross weight 2000kgs) and the solid floor comes complete with base plinths.

Available on request is a separate ramp to aid loading and unloading.
