

Drum Spill Pallet - HD4

Designed to accommodate four horizontal 205ltr drums across two levels this spill pallet is manufactured from steel plate, which is corrugated for additional strength, has a fully seam welded sump that is fully compliant with all the current UK regulations relating to sump capacities and is fitted with fork hoops to aid movement and keep the underside of the sump off the floor. The drums sit on cradles above the sump and are further protected by raised back and side walls. Prior to painting the unit is fully shot blasted to provide a clean and keyed surface. This model can hold 4 x 205ltr drums.
