

HISD/E - Insulated Side Drum Heater

The high quality silicone heating element of the HISD/E side drum heater is stitched into an insulated jacket made from a highly durable flame retardant polyester fabric and insulated with a thermally efficient, flexible E-glass fibre blanket. The construction is complete with easy to use quick release buckles for simple installation and removal, 4 metres of robust power cable and either a 0°C to +40°C or 0°C to +90°C capillary thermostat (digital option available), a 145oC over-temperature limiter for further protection and has a class II double insulated element meaning that it far exceeds European safety standards. It also provides an unrivalled solution for frost protection applications.

SPECIFICATION	
Jacket Material	Flame retardant polyester fabric
Insulation	E-glass fibre blanket
Element	Silicone insulated spiral wound resistance element
Fixing	Polypropylene webbing with quick release adjustable buckles
Power Cable	4 Metre HO7RN-F
Power rating	110 or 230V
Protection	IP40
Thermostat	0°C to +40°C or 0°C to +90°C or digital
Drum Size	200ltr
Size	800mm x 1950mm heater band size with a power rating of 110V or 230V 1200W
Diameter	573mm x 611mm*

* Minimum to Maximum - The diameter doesn't guarantee a perfect fit, if fitting to the largest diameter the edges of the jacket may not touch. The optimum diameter is midway between the two given diameters.

Please specify thermostat type and power rating required
