

IBC Spill Pallet - IBCD

Manufactured from steel plate the fully seam welded sump, which complies with all the current UK regulations relating to sump capacities is fitted with a galvanised steel grid mesh panel and fork hoops to ensure the underside is not in contact with the ground and aid movement by forklift truck. This model comes complete with a sloping dispensing frame to aid decanting from the IBC into smaller containers. Prior to painting the unit is fully shot blasted to provide a clean and keyed surface. This model can hold 1 x 1000ltr IBC.

This unit will be delivered by an HGV, possibly articulated therefore please ensure that a vehicle of this type can access your premises before ordering and advise us accordingly.

You will require an appropriate size/capacity forklift truck to offload this item from the delivery vehicle. Our standard delivery doesn't include any offloading.
