

Re-usable Drain Mat - OBY091

Manufactured from polyurethane these mats have a naturally sticky finish on one side which provides a mechanical grip and helps them to adhere to the surface they are being used on. The other (top) side has plastic sheet with carry handles built-in to aid deployment and recovery.

After use it is advisable to clean off any particles that may have adhered to it. (A mild soap solution is recommended – don't wipe down with a cloth as fibres will stick to the mat)

When selecting a mat always try and choose a size that gives you a minimum of 100mm overlap to help ensure a positive seal.

SPECIFICATION

Size	910 x 910 x 8mm
Colour	Yellow
Weight	8.3kg
