

## COSHH Storage Cabinet - PSC1

COSHH-compliant cabinet rotationally moulded in the UK while being backed by a 3-year guarantee. Each PSC1 is manufactured from polyethylene which has a wide range of chemical compatibility (check our compatibility guide for further information) allowing many types of chemicals to be suitably stored.

The cabinet is both lightweight & robust meaning it is well-equipped to endure environmental challenges including inside factories close to machinery. This makes the PSC1 a good choice as a "localised storage point", such as a static spill station, for housing small containers, tins, cans & absorbents.

The hinged door is fitted with a lock while the cabinet comes supplied with two removable shelves to aid clean-up.

You will require an appropriate size/capacity fork lift truck to offload this item from the delivery

### SPECIFICATION

|               |                             |
|---------------|-----------------------------|
| External size | 534mm L x 420mm W x 990mm H |
| Sump capacity | 17ltr                       |
