

Sliding Carriage - SLC

For use with models HD1, HD2, HD4, HD2D or HD4D the sliding carriage allows the lower level of drums to slide forward from underneath the top drums (in the case of 4 and 6 drum units) to aid loading and unloading.

IMPORTANT NOTE

Under no circumstances must the sliding carriage be used when the unit has been stacked on top of another unit.

SPECIFICATION

Size	L1000 x W490 x H100mm
Tare weight	30kg
