

Drum Spill Pallet - VD1

Designed to accommodate a single vertical 205ltr drum this spill pallet is manufactured from steel plate, which is corrugated for additional strength, has a fully seam welded sump that is fully compliant with all the current UK regulations relating to sump capacities and is fitted with fork hoops to aid movement and keep the underside of the sump off the floor. The drum sits on a galvanised steel grid mesh panel above the sump and is further protected by raised back and side walls. Prior to painting the unit is fully shot blasted to provide a clean and keyed surface. This model can hold 1 x 205ltr drum.

SPECIFICATION

External size	800mm L x 800mm W x 1375mm H at the highest point on the unit
Number of containers	1 x 205ltr
Sump capacity	225ltr
