

## Drum Store - VD2D

Manufactured from steel plate with a fully seam welded sump which fully complies with all the current UK regulations relating to sump capacities the two drums sit on galvanised steel removable grid mesh panels and access to the storage area is via a pair of hinged doors (fitted with vents) and a lift-up lid fitted which is fitted with a metal stay bar. To aid movement by fork lift truck and keep the underside of the sump off the floor and reduce the risk of corrosion the unit is fitted with forklift truck hoops and prior to painting the unit is fully shot blasted to provide a clean and keyed surface. This model can hold 2 x 205ltr drum.

This unit will be delivered by an HGV, possibly articulated therefore please ensure that a vehicle of this type can access your premises before ordering and advise us accordingly.

You will require an appropriate size/capacity fork lift truck to offload this item from the delivery vehicle. Our standard delivery doesn't include any offloading.

### SPECIFICATION

External size:	1500mm L x 750mm x W x 1360mm H at the highest point of the unit
Nº of containers:	2 x 205ltr - vertical
Sump capacity:	260ltr
