

Drum Spill Pallet - VD2

Designed to accommodate two vertical 205ltr drums side by side this spill pallet is manufactured from steel plate, which is corrugated for additional strength, has a fully seam welded sump that is fully compliant with all the current UK regulations relating to sump capacities and is fitted with fork hoops to aid movement and keep the underside of the sump off the floor. The drums sit on galvanised steel grid mesh panels above the sump and are further protected by raised back and side walls. Prior to painting the unit is fully shot blasted to provide a clean and keyed surface. This model can hold 2 x 205ltr drums.

SPECIFICATION

External size	1580mm L x 830mm W x 1300mm H at the highest point on the unit
Number of containers	2 x 205ltr - vertical
