Storage Cabinet | Open Fronted

A simple (no door) storage cabinet manufactured in durable polyethylene which makes it ideal for different applications where you need easy access to items such as absorbents, cleaning materials or tools on the production line, at a dosing point, or in a maintenance area.

The cabinet comes complete with a height adjustable shelf and a recessed top which can act as a temporary spill tray (18ltr capacity) for situations where you need to contain a damaged or leaking small container.

Product Specifications
