

Technical Data Sheet | TT100G

Drip Tray with Grids | 100ltr Sump

Manufactured from recycled polypropylene for broad chemical compatibility this drip tray is ideal for day to day use such as storing small containers at dosing points or in a maintenance area. The 4 grids keep the base of any containers out of spilt liquid and because it nests well this drip tray takes up less space when being stored or transported.

Product Specifications

External Dimensions (WxLxH)	1000 x 1000 x 120mm
Unit Weight	Approx. 7kg
Sump	99ltr
UDL	-

Product Features and Benefits

- Offers broad chemical compatibility and supports eco-conscious practices without compromising durability
- Perfect for storing small containers at dosing points or in maintenance areas, helping to manage minor spills and leaks efficiently.
- Includes 4 removable grids that keep containers elevated above any spilled liquid, reducing the risk of cross-contamination and damage.
- Nests easily for compact storage and transport, making it highly practical for busy workspaces with limited storage capacity.
- Built for repeated use in tough environments and simple to maintain for long-term performance.
