

U2193060 - Organic Compound Granules

Organic compound manufactured from 100% recycled materials. These granules are lightweight and a highly absorbent material with the capability to instantly absorb spills in the workplace. These are suitable for use both indoors & outdoors.

The compound is fireproof.

To use, simply pour the compound onto a spill. Brush it together before brushing it up while leaving the surface to dry without residue.

Available in bags of 30L.

Product comes as a pallet of 70 bags at 30L absorbency from each bag.
