LTTM ADJUSTABLE SHELVING

VERSATILE, MODULAR, ATTRACTIVE.

SDS MECHANICAL ASSIST SYSTEM, SLOTTED
SHELVES & ADJUSTABLE DIVIDERS - CORPORATE

SDS MECHANICAL ASSIST SYSTEM, SLOTTED SHELVES & ADJUSTABLE DIVIDERS, PULL-OUT DRAWERS - CORPORATE

LT SHELVING ADVANTAGE

Spacefile's LT Adjustable Shelving offers exceptional strength, durability and unrivaled versatility for an extensive range of applications. LT Shelving incorporates both "L" & "T" shaped tubular uprights with interlocking keyholes on the interior for a clean, attractive appearance with no visible holes on the exterior of the uprights/posts. Stationary configurations are available that may be integrated with any of Spacefile's mobile storage systems.

- Fully-adjustable design facilitates shelf and accessory positioning in 1-1/2" increments for maximum versatility
- Variety of versatile accessories including lockable options to meet virtually any security criteria
- Double-entry (dual-sided access) and back-to-back configurations
- Various upright designs including open, closed, perforated, case/library style (double-walled)
- Custom widths, depths, heights and shelf gauges

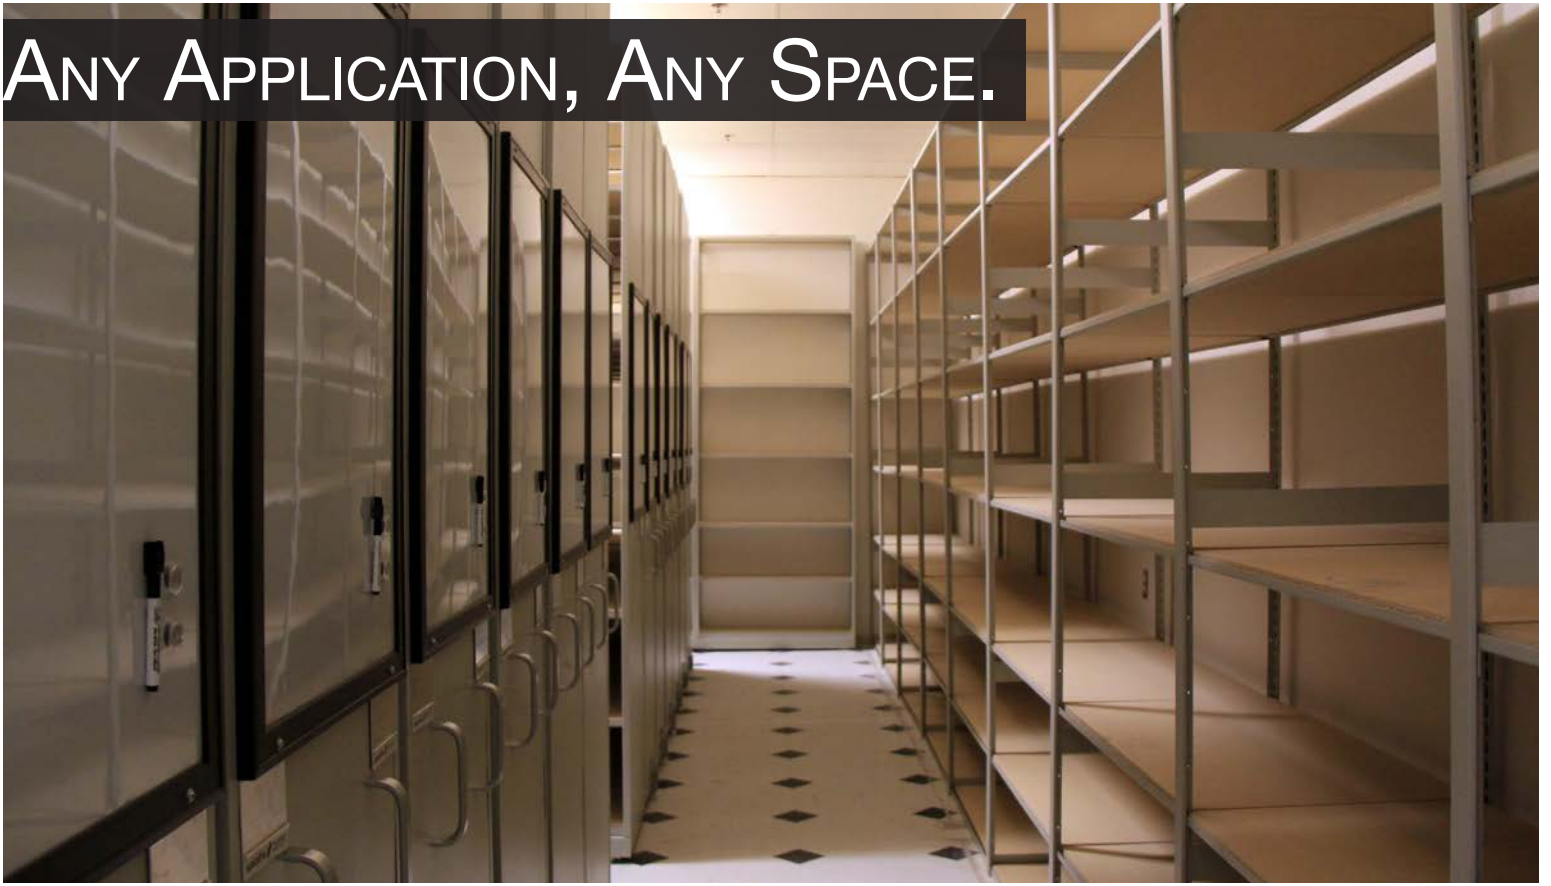

MODULAR DESIGN - RECONFIGURE, REUSE & RELOCATE

- Quick & simple installation
- Ease of reconfiguration, reuse and/or relocation

ENVIRONMENTALLY FRIENDLY

Spacefile is committed to designing and manufacturing long-lasting, environmentally friendly products. LT Shelving is constructed from sheet metal with an average of over 40% recycled content. Spacefile products may contribute to LEED accreditation. Powder coat paint emits negligible VOC's (volatile organic compounds) for a cleaner, healthier indoor environment.

ANY APPLICATION, ANY SPACE.

SDS_m MANUAL SYSTEM, PARTICLE BOARD
SHELVES, DRY-ERASE BOARDS - RETAIL

SDS_m MANUAL SYSTEM, STEEL PEGBOARD
UPRIGHTS & HANGING RODS - RETAIL

SHELF OPTIONS:

SLOTTED SHELVES WITH ADJUSTABLE DIVIDERS

Shelves are slotted on 2" centers with corresponding slotted back/center stops for addition of adjustable file dividers (various divider sizes and custom slot locations are available).

UNSLOTTED & HEAVY DUTY SHELVES

Unslotted shelves are ideal for basic storage applications including archive boxes. Heavy duty shelves are engineered to withstand immense loading for large, heavy item storage (multiple shelf gauges are available).

PERFORATED STEEL SHELVES

Steel perforated shelves promote airflow throughout shelf levels and are the ideal solution for retail, athletic and recreational facilities. Shelves have over 50% surface perforation, allowing water to penetrate shelf levels, thereby meeting stringent fire protection standards. Perforated shelves have a fully-finished exterior with smooth, burr-free edges and feature significantly higher strength and durability when compared to traditional wire mesh shelving.

PARTICLE BOARD SHELVES

Particle board shelves can be integrated with LT Shelving as an economic alternative. Various thicknesses are available along with slotted options capable of accepting masonite board dividers.

CUSTOM SHELVES

Punched shelves for integration with full height bin dividers

Wire mesh shelves of varying gauges and wire spacings for light to heavy duty applications

MDF board, plywood, and stainless steel shelves

	STANDARD SIZES	CUSTOM SIZES
WIDTH	24", 30", 36", 42", 48"	any up to 60"
DEPTH - SINGLE ENTRY	9", 12", 15", 18"	any up to 60"
DEPTH - DOUBLE ENTRY	18", 24", 30", 36"	any up to 60"
HEIGHT	64-1/4", 76-1/4", 85-1/4", 88-1/4", 97-1/4", 121-1/4"	any up to 145-1/4"

ACCESSORIES & COMPONENTS

Spacefile manufactures a complete line of accessories and components compatible with LT Shelving that may be added or reconfigured to adapt to changing storage needs.

- Back/center stops
- Full steel/laminate back panels
- Pull-out reference shelves
- Garment/hanging rods
- Adjustable dividers - custom sizes available
- Pull-out drawers
- Lockable tambour & hinged doors
- Steel pegboard uprights
- Kick plates
- Magnetic dividers
- Laminate or acrylic end panels
- Several other custom accessories & finishes

DURABLE POWDER COAT PAINT FINISH

Spacefile's steel products are finished with powder coat paint, providing a durable, hard surface with superior performance qualities. Powder coating provides excellent abrasion, impact, corrosion, stain, and chemical resistance, exceeding industry standard scuff, scratch and chip requirements. Spacefile has 12 standard colors, along with an eco-friendly and anti-bacterial paint option. Custom powder coat paint colors are also available.
