

the little guy Professional smart coffee scale

The Little Guy Professional Smart Coffee Scale is a precision instrument designed for coffee enthusiasts and professionals alike.

Boasting an impressive accuracy of 0.1 grams, it can measure weights ranging from 0.1 grams up to 3 kilograms, making it versatile for various brewing methods. With a lightning-fast response time of just 20 milliseconds, this scale ensures that you can make precise adjustments in real-time.

The large display is easy to read, and the battery life extends up to 12 hours for prolonged use.

Crafted from premium materials, it also includes a heat-resistant silicone pad to protect the unit when placing a group handle on it, ensuring durability and longevity. Whether you are a barista or a home brewer, this smart scale will elevate your coffee-making experience.

Modes of operation

- NORMAL SCALE MODE
- ESPRESSO MODE
- FILTER MODE
